* Phumelela's annual financial statements for the year ended 31 July 2017 were selected for review by the JSE as part of its pro-active monitoring of annual financial statements process. The JSE questioned the appropriateness of disclosing betting taxes and value added tax ("VAT") in betting income as 'revenue' in the statement of comprehensive income. The JSE concluded that Phumelela's response did not provide an IFRSA based justification for presenting these 'costs' as a deduction from the revenue line item (net betting revenue). As a consequence, these 'costs' are now disclosed as an expense in the statement of comprehensive income (refer to the 'Summarised consolidated segmental analysis'). Comparative information has been restated accordingly.

RESULTS OVERVIEW AND STRATEGIC ASSESSMENT

The Group had what is best described as a mixed result for the six months, very good internationally and largely disappointing locally. Consolidated local operations were loss making, equity accounted profits increased, and the Group recorded a 39% reduction in profit before tax.

Our international business, driven by Premier Gateway International ("PGI") on the Isle of Man, and the local online betting exchange Interbet, both returned an excellent result. Betting World and Supabets, as did the gaming industry locally and abroad, suffered lower profitability during the period, exacerbated by a difficult December with unusually high sports results favouring customers, in particular on soccer. Encouragingly, our new Supaworld JV is now a profitable reality.

The difficulties we faced in the 2018 financial year continued, with political turbulence, labour unrest, criminality, a stagnant economy, low business and consumer confidence, increasing unemployment, higher tax, inflationary administered prices, all a daily fact of business life.

The higher rate of VAT in 2018 was a direct cost to our bottom line and the increase too has placed further pressure on already subdued discretionary spending.

Horseracing continues to face unpredictability and inconsistency in the regulatory and licensing regime, an unnecessary burden that has financial consequences and inhibits forward planning.

Phumelela is a consumer-facing business with a large retail footprint and is directly affected locally by these negative macro factors.

Our partnerships with Supabets and Interbet are important. We are developing a healthy and productive relationship between our wholly owned fixed odds business Betting World and Supabets, from which the complementary Supaworld JV was born and which contributes a 75% share of earnings to Phumelela.

The TAB and Betting World websites will operate on software developed by Interbet, our joint venture online bookmaking business and betting exchange which has proven to be an excellent investment.

Phumelela, Kenilworth Racing, and Gold Circle stage race meetings 364 days a year with live media and data rights, produced by Tellytrack, sold locally and to an expanding number of overseas territories. Without a successful domestic sport there isn't a successful international presence.

Management is engaging with key stakeholders in the horseracing industry and in gaming to improve relationships and mend fences where there has been discord. The Board

remains open to any realistic and constructive ideas that may benefit horseracing and the shareholders of Phumelela.

Even as we strive to develop, management has taken a view that in the likely absence of a meaningful improvement in the domestic economy, we have no option but to right size the Group because of these commercial realities.

Further to the voluntary severance programme in the previous year, we have identified additional areas where we are not fit for purpose and where we need to right size. Detailed action plans, costed and modelled for their beneficial financial impact, are being implemented.

All executives have cost reduction targets, there are no exceptions, and they are tasked with delivery thereon.

This has been a difficult six months, with more than its fair share of challenges, a reduced level of profitability, and limited balance sheet flexibility. Nevertheless, the Group is resolute in pursuing its strategic objectives, which include being the standard bearer for the sport of thoroughbred South African horseracing and offering punters an exciting gaming experience through the complementary brands TAB, Betting World, Supabets and Interbet.

BETTING OPERATIONS

The Betting Operations segment comprise over-the-counter ("OTC") retail outlets and non-OTC, which comprises internet and telephone betting in South Africa and internationally. Equity-accounted income from the jointly owned Premier Gateway International ("PGI") tote operator on the Isle of Man is included in the non-OTC segment.

Consolidated betting income reduced by 7% with downward top line and betting margin pressure in both tote and fixed odds. Betting turnovers are not keeping up with inflation on the expenses line and in fact declined in nominal terms.

Like for like same outlet net betting income was down by 6% in Tab and by 10% in Betting World. Same outlet net betting income was up 4% in Supabets. December was a loss-making month due to international soccer results favouring the gaming customer.

Taking the two Phumelela companies Tab and Betting World together, non-OTC increased to 27% of net betting income. Non-OTC betting demand outpaced traditional bricks and mortar and our use of smartphone apps and internet harnesses this growth. Non-OTC accounts for 21% of Supabets net betting income, however, given the size, design and location of Supaworld outlets they remain very popular as a gathering place for fellow customers.

Taking the combined net betting income of Phumelela, Supabets, Interbet, and Premier Gateway International ("PGI"), then non-OTC is 65%, up from 58% for the same period in the previous year.

Non-OTC active accounts at Tab increased by 9%, non-OTC active accounts at Betting World increased by 13% whilst the increase for Supabets was 20%.

Irrespective of the tough economic climate, this evolution to a more online world underscores the correctness of the strategy to right size our bricks and mortar footprint and staffing. There will always be a place for physical outlets, Supabets exemplifies that, but the mix of how business is transacted is changing shape.

Excluding agencies, Tab ended the period with 135 outlets, Betting World with 64 outlets, Supabets on its own with 11 outlets and Supaworld with 6 outlets.

We are deploying Betting World licences as Supabets mega outlets through our best of both strategies and therefore the number of Betting World outlets reduced during the period with the number of Supaworld JV outlets increasing from two to six. On average, turnovers in a Supabets JV outlet are 400% higher than the previous Betting World outlets and management are confident that the results of this will start filtering through.

Betting World is refining the competitiveness of the bet offering, both in soccer and horses, to grow market share. Soccer 8 and Soccer 15 are in the pipeline. The recently introduced futsal (5 a side soccer) product is popular and suitable for other African markets.

PGI located on the Isle of Man ended the 2018 year strongly and continued in top form through the six months ended 31 January. Equity accounted income was 26% higher.

Soccer is being promoted by Phumelela International as a complement to horseracing and the Opera Mini/Supabets Powerbet gambling site with its online wallet to pay has good potential in African markets such as Kenya. Furthermore, horseracing is finally gaining traction in Africa in cooperation with the African Lotteries Association, with Senegal, Ivory Coats and Mali receiving race feed.

Phumelela International footprint reaches 41 countries for horseracing and a further 3 for tote bets on football.

Internationally, a continued positive trend is anticipated from the Isle of Man, sports betting expansion into Africa through Powerbets is a positive feature with lots of runway, and there is good progress with racing into Africa with this expansion expected to continue.

Profit before equity accounted income was down by 11% to R204,1 million. Despite a weaker result from Supabets, total equity accounted income was up by 8% to R88,6 million and thus the total segment pre-tax income was down by 6% to R292,8 million. Despite a difficult six months, our combined betting operations are a formidable contributor and competitive force with substantial potential.

RESULTS OVERVIEW AND STRATEGIC ASSESSMENT CONTINUED

MEDIA OPERATIONS

Media Operations comprise the selling of media and data rights of South African horseracing locally and internationally. Administering horseracing therefore remains a fundamental part of our Media Operations and South Africa is the engine that feeds our international operations and sports betting on horseracing. The horseracing operations remain loss making on a stand-alone basis.

Racing in the period was disrupted on the Highveld by inclement stormy weather with several meetings lost, often consecutive meetings. Cancelled or rescheduled meetings put pressure on turnovers and betting volumes.

Political agitation has bedevilled the horseracing industry in the past year and trade unions have been mobilising membership and pressing for steep rises in minimum wages for grooms. Violence has ensued and there has been disruption to stable yards and meetings.

A rescheduled calendar and the addition of a new feature race are part of a campaign to showcase the best of South African racing.

In terms of the stakes agreement with the Racing Association, there is an agreed formula for prize money; during the period the distribution of this money was adapted in favour of middle to lower ranked horses.

There is ongoing strong demand from international betting operators for the media and data rights of South African thoroughbred horse racing. Commingled media and data rights fees from countries outside South Africa continue to be positive.

The loss increased by 35% to R194,1 million, which includes an international profit from media rights of R50,1 million.

GROUP FINANCIAL ANALYSIS

Shareholders' attention is drawn to the following accounting standards and consequent restatements.

- IFRS 15 addresses revenue recognition of customer contracts, requiring that revenue and related costs are only recognised when a performance obligation has been satisfied and so the timing of when revenue is recognised and the amount thereof. IFRS15 is based on the principle that revenue is recognised when control of goods and services is transferred to a customer, the notion of control replaces the existing notion of risk and rewards. There is therefore a R24,3 million reversal of accrued account receivables directly to retained income, which amount pertains to disputes with Tellytrack customers.
- IFRS 9 deals with expected loss provisioning and has an immaterial effect and has not affected disclosure. The impairment model has been changed from an incurred loss model to an expected credit loss model. There is no significant increase in the provision for bad debts.

- Amendment to IFRS 2, Classification and Measurement of Share-based Payment Transactions. As share-based payment charges are equity settled there are no changes to the amounts recognised.
- IFRIC 22, Foreign Currency Transactions and Advance Considerations. The Group applies the transaction date rate and so there is no effect.

Phumelela's annual financial statements for the year ended 31 July 2017 were selected for review by the JSE as part of its pro-active monitoring of annual financial statements process. The JSE questioned the appropriateness of disclosing betting taxes and VAT in betting income as 'revenue' in the statement of comprehensive income. The JSE concluded that Phumelela's response did not provide an IFRS-based justification for presenting these 'costs' as a deduction from the revenue line item (net betting revenue). As a consequence, betting taxes and VAT are now excluded from within net income and disclosed separately as an expense. Consequently, net income as previously stated is now higher by the collective amount of the betting taxes and VAT whilst expenses are increased by the same amount. There is no effect on EBITDA or profit from operations. Comparative information has accordingly been restated.

Consolidated net income decreased by 3% to R899,5 million of which local income accounted for 81% compared with 83% in the prior period. Betting Operations contributed 70%, Media 27%, and Administrative and Support Services the balance. Local income declined by 6% and international income increased by 7%.

Operating expenses increased by 1% to R886,2 million. Excluding the R27,1 million voluntary severance programme expense in the prior period local expenses increased by only 4% whilst international expenses increased by 8% as reported in rand. Intellectual property rights fees increased by 15%. Stakes increased by 6% in terms of the formula contained in the stakes agreement with the Racing Association and calculated retrospectively.

Local expenses within the Group's control have been kept restrained but the Group faced upward wage pressure during the period and must contend with inflationary administered and municipal charges.

The increase in VAT in the 2018 budget cost the Group approximately R5 million during the six months. We bear the full financial cost of the rise from 14% to 15% due to there being no relief on the take-out ratio after provincial taxes and levies.

All possible economy measures are being identified to save on costs across the Group. This will be achieved, *inter alia*, through optimising the bricks and mortar retail footprint, deepening operating synergies between Supabets and Betting World, removing duplication where identified, promoting the sharing of best practices, eliminating positions surplus to future requirements, and by improving productivity through having the right people in the right jobs working to strict deliverables.

RESULTS OVERVIEW AND STRATEGIC ASSESSMENT CONTINUED

Depreciation and amortisation of R34,8 million is allocated 55% to Betting Operations, 36% to Media, and the balance to Administrative and Support Services. The Group continues to reinvest in its estate with R36,5 million spent during the period.

A loss from operations of R21,5 million, before finance cost and share of equity accounted investees, was incurred, a reversal from an operating profit of R20,3 million previously.

Finance costs of R18,3 million increased by 6% due to higher borrowings and lower cash balances.

Profits from equity accounted investees increased by 8% to R88,6 million and comprises the Group's share of profits from PGI (up 26% to R63,4 million), Supabets (down 40% to R15,8 million), Interbet (up 19% to R8,5 million), Supaworld (loss of R0,6 million), and SW Security (R1,6 million). Supabets was impacted by adverse trading in the latter part of the period. The Supaworld joint venture, still in a start-up phase with 6 outlets now operating, made a small accounting loss but from an operating point of view earned EBITDA of R8,7 million, which is very encouraging.

The R3,2 million positive non-cash fair value adjustment relates to the investment in Automatic Systems Limited in Mauritius. The shares are held at market value.

Due to losses in the domestic operations, the Group recorded a tax credit of R17,0 million. Cash tax paid reduced substantially to R3,1 million. The deferred tax asset on the balance sheet increased to R54,6 million. Tax losses are available for utilisation against future taxable income. Equity-accounted investees Supabets, Interbet, and SW Security are profitable and pay tax at the South African corporate tax rate of 28%.

Earnings attributable to ordinary shareholders reduced by 17% to R70,0 million. This translates to 70,05 cents per share, down by 16%.

Headline earnings decreased by 18% to R68,0 million and headline earnings per share reduced by 17% to 68,02 cents.

The weighted average number of shares in issue reduced by 1,7% to 99 969 347, the same number as shares in issue. There was no movement in either shares bought back or shares issued in terms of share options.

Operating activities absorbed cash of R40,7 million. Operations absorbed cash of R2,7 million and there was R38,0 million in cash applied to working capital, primarily an increase in accounts receivable from, *inter alia*, international customers and our franchise operations.

Dividends paid to shareholders amounted to R62,0 million. Net dividends received from equity accounted investees amounted to R70,8 million, up 24% from R57,2 million.

Gross debt of R359,0 million and cash of R68,7 million results in a net debt position of R290,3 million. At 31 July 2018, gross debt was R316,3 million and cash was R114,4 million for net debt of R201,9 million. A remaining contingent consideration payable in respect of Supabets of R28,8 million is in addition to this and payment is dependent on conditions pertaining to the sales agreement. The debt to equity ratio has risen to 32% from 23% at year end.

Including the contingent consideration results in a net debt to annualised EBITDA ratio of 1,7x and annualised interest cover of 5,2x. At year end the same metrics were 0,95x and 7,0x respectively.

The coverage ratio is still within bounds of covenant acceptability, but the Directors are cognisant of the fact that the first half results have been poor, that funding headroom has been exhausted, and that all measures necessary to stabilise the position have to be taken, particularly as it is difficult from the current vantage point to determine how the year will end. The Group though is fortunate to have strong international cash flows and profits, which in the year to 31 July 2018 amounted R204,3 million and which for period in review amounted to R113,5 million.

There is a clear focus on prioritising cash for critical capital expenditures and several growth and development initiatives.

At the end of December 2018, the Group called up a USD2,0 million bank guarantee to Mashonaland Turf Club in Zimbabwe. Repatriation of funds to South Africa are subject, *inter alia*, to Zimbabwe Reserve Bank approval.

The Group has total assets of R1,66 billion of which long term assets are R1,39 billion, the largest component being equity accounted investees to the value of R714,7 million. Attributable equity is R998,5 million, equivalent to net asset value per share of 990,58 cents.

SHARE CAPITAL

There has been no change in the authorised or issued share capital of the Company during the period.

At 31 January 2019, issued share capital amounted to 99 969 347 shares, net of 2 531 211 treasury shares.

SUMMARISED CONSOLIDATED SEGMENTAL ANALYSIS

The Group offers betting opportunities on South African and international sports and numbers and sells live media and data of South African horseracing content locally and internationally. Reporting disclosure corresponds to management reporting lines.

RESULTS OVERVIEW AND STRATEGIC ASSESSMENT CONTINUED

MATTERS OF CORPORATE INTEREST AND LITIGATION

There are no further developments to report pursuant to the disclosure contained in the annual financial statements for the year ended 31 July 2018.

Shareholders are reminded that the outcome of the relevant actions noted under Corporate Interests and Litigation, as described in the annual financial statements, remains uncertain and may have an impact on future earnings.

On 15 January 2019, the Gauteng Member of the Executive Council responsible for Economic Development, Environment, Agriculture and Rural Development ("the MEC") published proposed amendments to the Gauteng Gambling Regulations, 1997 ("the Regulations").

RESULTS OVERVIEW AND STRATEGIC ASSESSMENT CONTINUED

These include an amendment to Regulation 276, which provides for a bookmaker to deduct 3% of a punters' winnings on bets on horseracing in terms of Regulation 270 ("bookmakers' tax") and a further 3% of a punters' winnings on bets on horseracing for the benefit of the holder of a totalisator licence, in terms of Regulation 273 ("betting tax"). Under Regulation 270, the specified tax must be paid over to the Gauteng Gambling Board ("the Board"). The Board is then obliged to pay 3% of the total 6% (i.e. half) to Phumelela, the sole holder of a totalisator licence in Gauteng.

The amendments will have the effect of depriving Phumelela of the betting tax and directing it towards the Board, meaning that the Board will be the beneficiary of the entire 6% of the tax levied on punters' winnings on bets on horseracing.

Phumelela submitted detailed representations in respect of the proposed amendments, supported by an economic report analysing the economic effects of the amendments.

The betting tax received by Phumelela in Gauteng constitutes 90% of the betting tax received by it in South Africa and amounts to approximately R75 million per year. If the amendment is implemented and Phumelela is deprived of the betting tax, it will have a material adverse effect on Phumelela and on racing in general.

It is anticipated that the final amended regulations will be published in the Provincial Gazette on 29 March 2019. Phumelela has been advised to apply to the High Court to have the amendment regarding the betting tax reviewed and set aside, should it be implemented, on the basis that it is irrational, unreasonable and unconstitutional. Such an application will include an urgent application to stay the implementation of the amended regulations, pending the outcome of the review application.

As part of the ongoing disciplinary proceedings instituted by the Gauteng Gambling Board, the disciplinary committee delivered its preliminary recommendation on sanction on 11 March 2019. The Disciplinary Committee has recommended that: a fine in the amount of R10m be imposed on Phumelela with half the amount suspended for a period of 5 years.

The Committee further recommended that Phumelela be directed to comply with Condition 10 of its race meeting licence with immediate effect by providing the Tellytrack channel to all bookmakers.

Phumelela has made submissions in respect of the preliminary finding and the Gauteng Gambling Board must now decide whether to follow or reject the disciplinary committee's recommendations or remit the matter to the disciplinary committee for further investigation. Phumelela has been advised to apply to the High Court to have any decision by the Board to follow the disciplinary committee's recommendations reviewed and set aside. This will include an application to stay the enforcement of the decision, pending the outcome of the review.

REPORTING ENTITY

Phumelela Gaming and Leisure Limited is a company domiciled in South Africa. The condensed consolidated interim financial statements as at 31 January 2019 comprises of the company and its subsidiaries and the Group's interests in equity accounted investees and joint operations.

BASIS OF PRESENTATION

These interim condensed consolidated financial statements have been prepared in accordance with the framework concepts and the measurement and recognition requirements of International Financial Reporting Standards ("IFRS") and the SAICA Financial Reporting Guides as issued by the Accounting Practices Committee and Financial Reporting Pronouncements as issued by Financial Reporting Standards Council, and include disclosure as required by IAS 34 Interim Financial Reporting and the Companies Act of South Africa. They do not include all the information required for a complete set of IFRS financial statements. In preparing these interim condensed consolidated financial statements, management make judgements, estimates and assumptions that affect the application of accounting policies and the reported amounts of assets and liabilities, income, and expense. Actual results may differ from these estimates.

The implementation of IFRS 15: Revenue from Contracts with Customers and IFRS 9: Financial Instruments became effective for the Group in the 2019 financial year. The Group has assessed and applied the new standards and the interim results have been reported in line with the new requirements. As reported under Group Financial Analysis, the 31 January 2018 and 31 July 2018 comparative periods have been restated.

Mr B McLoughlin CA (SA) Chief Financial Officer was responsible for supervising the preparation of the interim condensed consolidated financial statements and preparing the summarised financial statements.

SUBSEQUENT EVENTS

There are no significant subsequent events that have an impact on the financial information at 31 January 2019.

RELATED PARTIES

Other than in the normal course of business, there have been no significant transactions during the period with equity accounted investees, joint operations, and other related parties.

SOCIAL RESPONSIBILITY

Empowerdex has audited the Group as a level 4 with Empowering Supplier status. The Group continues to identify areas for improvement.

The Group recognises that it has a responsibility to the broader community to act in a socially responsible manner, for the benefit of all South Africans. Contributions to selected

RESULTS OVERVIEW AND STRATEGIC ASSESSMENT CONTINUED

training, sports and community service-related projects continue. The Group has adopted appropriate BEE and employment equity, training, and procurement policies.

DIRECTORS

With effect from:

- 30 November 2018, Mr Vee Moodley tendered his resignation as executive director, Sports Betting;
- 11 December 2018, subject to regulatory approval, Mr Mark Currie was appointed as a non-executive director;
- 11 December 2018, subject to regulatory approval, Colonel Johnny Sexwale was appointed as a non-executive director;
- 11 December 2018, Mr Rob Cooper retired from the Board;
- 11 December 2018, Mr Chris van Niekerk retired from the Board;
- There are no other changes to the composition of the Board.

The Board expresses sincere thanks to Messrs Cooper, Moodley and van Niekerk for their valued contribution and loyal service to the Company and wish them well in their future endeavours.

PROSPECTS

Management is focused on reducing expenses in a challenging domestic economic climate but will also ensure that capital expenditure and investment is prioritised where necessary within the resources that we have. Our international operations are nevertheless doing well, and we shall have a pleasing result if current trends continue.

Politics will be dominated by electioneering in the run up to the general elections on 8 May, which could further unsettle the trading situation and customer sentiment and willingness to spend.

Any forward-looking statements or forecasts contained in these results have not been reviewed or reported on by the Group auditors.

DIVIDEND TO SHAREHOLDERS

In the interests of conserving cash and with a view to future capital commitments, the Board has resolved not to declare an interim cash dividend.

For and on behalf of the Board

Agenda

- **Welcome and Introduction: Mr Bernard Kantor, Chairman**
- **Financial overview: Mr John Stuart, CEO**
- **The period in perspective: Mr John Stuart, CEO**
- **Outlook: Mr John Stuart, CEO**
- **Q&A with executive team**
- **Supplementary data**

2

Financial results for the six months ended 31 January 2019

Notes

Welcome and Introduction Bernard Kantor

Notes

Financial overview John Stuart

Notes

Financial highlights

Earnings

- Down 17% to R70,0m
- EPS down by 16% to 70,05c

Headline earnings

- Down by 18% to R68,0m
- HEPS down by 17% to 68,02c

Expenses

- Like-for-like up 4% despite inflationary pressures

Cash flow

- Working capital temporarily elevated as at 31 January due to an increase in accounts receivable

Balance sheet

- Net debt 32% of ordinary shareholders equity
- Focus on stabilising the position and reducing debt
- Accounting restatements detailed in results release

Dividend

- In the interests of conserving cash and with a view to future capital commitments, the Board has resolved not to declare an interim cash dividend

Financial results for the six months ended 31 January 2019

5

Notes

Financial highlights

- Local operations were loss making in their entirety, to the extent of R61.4m (R13.5m)
- Pre-tax loss, before equity accounted income, of R36.5m (profit of R3.3m)
- Betting operations made a pre-tax profit of R292.7m
- Wholly owned horseracing operations made a pre-tax loss of R194.1m (R143.7m) – which includes an international profit of R50.1m
- Local associate income reduced by 21% to R25.2m from R31.8m
- International associate income increased by 26% to R63.4m vs. R50.3m
- Despite tight control of the racing cost engine, losses have escalated
- Maintaining a successful international media and betting presence requires South African domestic racing to be commercially sustainable with equitable funding

6

Financial results for the six months ended 31 January 2019

Notes

The period in perspective
John Stuart

Notes

Weak and unsettled locally but positive internationally

Business conditions in South Africa

- Phumelela is a consumer-facing business that is directly affected locally by several negative macro factors
- The higher rate of VAT a direct cost to the bottom line
- Tougher competitive climate
- Labour unrest + wage pressures + political agitation + security

Regulatory licensing regime

- An unnecessary burden that has financial consequences and inhibits forward planning in horseracing

International reach expanding

- Phumelela International footprint reaches 41 countries for horseracing and a further 3 for tote bets on football
- Premier Gateway International is a 24-hour tote with highly liquid betting pools for international customers

Fixed odds

- A big shift from high margin sports betting to numbers betting

Financial results for the six months ended 31 January 2019

8

Notes

Betting operations - OTC bricks and mortar stores, non-OTC web and mobile betting – Betting World, TAB, Supabets, Interbet

- Consolidated betting income excluding Supabets reduced by 7% with topline pressure in the tote
- Like for like same outlet net betting income was down by 6% in TAB and by 10% in Betting World
- Same outlet net betting income was up 4% in Supabets
- Tote betting turnovers are not keeping up with inflation on the expenses line – betting handle decreased by 3%
- December was a loss-making month due to international soccer results favouring customers
- Supaworld a profitable reality and growing

Overview

Betting operations - OTC bricks and mortar stores, non-OTC web and mobile betting – Betting World, TAB, Supabets, Interbet

- Evolution to a more online world - non-OTC active accounts at TAB increased by 9%, non-OTC active accounts at Betting World increased by 13%, whilst the increase for Supabets was 20%
- As exemplified by the popularity of Supabets stores, bricks and mortar will always have a place but mix shifting
- Deploying Betting World licences as Supabets mega outlets through our best of both strategies
- Supaworld JV outlets increasing from two to six - turnovers in a Supabets JV outlet are materially higher than the previous Betting World outlet
- Betting World is refining the competitiveness of the bet offering, both in soccer and horses, to grow market share and Supabets will manage the book
- Several exciting product initiatives in the pipeline
- Futsal (5 a side soccer) is popular, suitable for other African markets
- New TAB betting platform “Betontab” with fixed odds options

Operational features and development initiatives

Financial results for the six months ended 31 January 2019

Notes

International - Premier Gateway International (Isle of Man) and Phumelela International

- Soccer is being promoted by Phumelela International as a complement to horseracing or as a stand alone product
- Opera Mini/Powerbet gambling site with its online wallet to pay has good potential in African markets
- Horseracing is gaining traction in Africa in cooperation with the African Lotteries Association - Senegal, Ivory Coast and Mali receiving race feed.
- PGI securing new business and improved revenue from premium customers betting on South African racing
- The Hong Kong Jockey Club renewed a three-year agreement for comingling
- A strong and profitable partnership with ARC in UK runs to 2022
- Whilst international operations are successful this success cannot be taken for granted and requires intense executive focus, maintenance of good relationships, extending territorial reach, and a good South African racing product

Operational features and development initiatives

11

Financial results for the six months ended 31 January 2019

Notes

Media operations - Sale of media and data rights of South African horseracing locally and internationally + South African horseracing

- Operational features and development initiatives
- Professional administration of South African horseracing is a fundamental part of our Media Operations and is the engine that feeds our international operations and sports betting on horseracing
 - Racing disrupted on the Highveld by inclement stormy weather resulting in a rescheduled calendar
 - The distribution of prize money adapted in favour of middle to lower ranked horses is positive for small owners
 - Commingled media and data rights fees from countries outside South Africa continue to be positive

12

Financial results for the six months ended 31 January 2019

Notes

Strategic update on progress in restructuring the Group

A strategic imperative for change

- Management has taken a view that in the likely absence of a meaningful improvement in the domestic economy, there is no option but to right size the Group for commercial realities
- Areas identified to improve efficiencies and operating leverage
- Full integration of TAB and Betting World operations
- Detailed action plans with regards to right sizing, costed and modelled for their beneficial financial impact, are being implemented
- All executives have cost reduction targets, there are no exceptions, and they are tasked with delivery thereon.

Senior operational management

- Patrick Davis - Racing Executive (1 April 2019)
- Rob Scott - Executive Director: Sports Betting
- Dean Sawarjith - Executive: International Operations
- Jimmy Iliadis - COO: Supaworld (managed by Supabets)
- Colleen Goodman – CEO Tellytrack
- Derrick Attfield – Group Chief Information Officer
- Nathan Fowler – National Retail Executive

Financial results for the six months ended 31 January 2019

Notes

Strategic update on progress in restructuring the Group

- Retrenchments equivalent to 10% of Group staff complement
 - Closure of TAB branches that are loss making or poorly located – 35% of current footprint
 - 300 employees – from top structure through to branches
 - Negotiate with landlords on rental reductions
 - Consolidate the trading office under one team at Supabets
 - Amalgamation of targeted TAB and Betting World stores
 - Tote agency model creates potential for significant new turnover
 - Majority of turnover protected through strategic interventions
 - Amicable solution sought with bookmakers on Tellytrack subscription
 - New property board created to determine where best to trade
- Rationalise and optimise the Tote and fixed odds estate + growth from Supaworld JV and agencies
- Targeting in excess of R50m in annual savings
 - R20m in potential extra profit through agency model
 - Additional funding of horseracing through Tellytrack subscriptions
 - Capex authorised only if a return can be generated

14

Financial results for the six months ended 31 January 2019

Notes

Strategic update on progress in restructuring the Group

A more efficiently managed horseracing administration

- Staffing structure efficiencies
- Each line item examined for savings – e.g. water usage
- Reinforced management with a new and focused Racing Executive
- Affordability of stakes at current level
- Building better relationships with all stakeholders

Quantitative implications

- Targeting R20m in annual savings

Medium term Group target

Phumelela

- Executive team challenged to cut domestic expenses by 10% and free up at least R100m

Financial results for the six months ended 31 January 2019

15

Notes

Outlook
John Stuart

Notes

Outlook

- Focused on reducing expenses in a challenging domestic economic climate
- Restructuring is in phase two following the voluntary retrenchment in F2018
- The quality of the customer betting experience will not be compromised
- Trade in gaming post January has not improved
- Politics in the run up to the general elections on 8 May could further unsettle the trading situation, customer sentiment and willingness to spend
- International is doing especially well and hopefully the trend will continue
- Supaworld JV is now profitable
- Our partnerships with Supabets and Interbet are important and developing well

In conclusion

Although we have several exciting challenges and initiatives, it is impossible to give certainty on trading results for the full year

Financial results for the six months ended 31 January 2019

Q&A

18

Financial results for the six months ended 31 January 2019

Notes

Phumelela Gaming

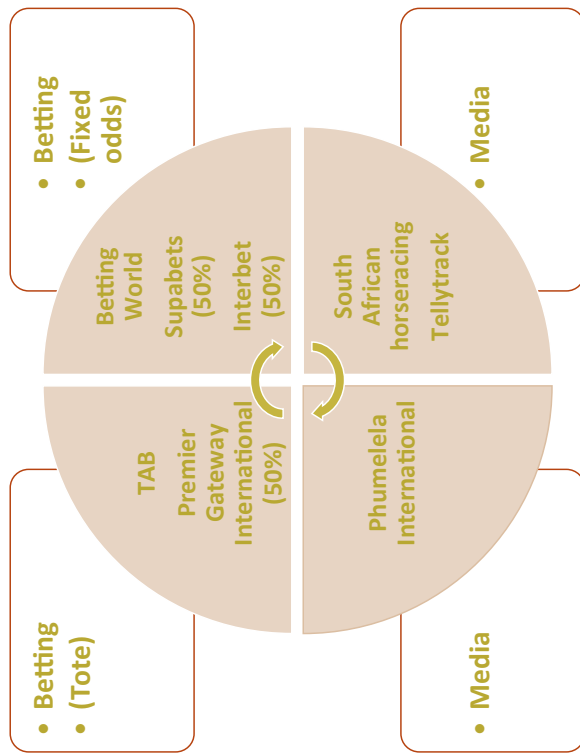

Phumelela Gaming and Leisure Limited

Supplementary data

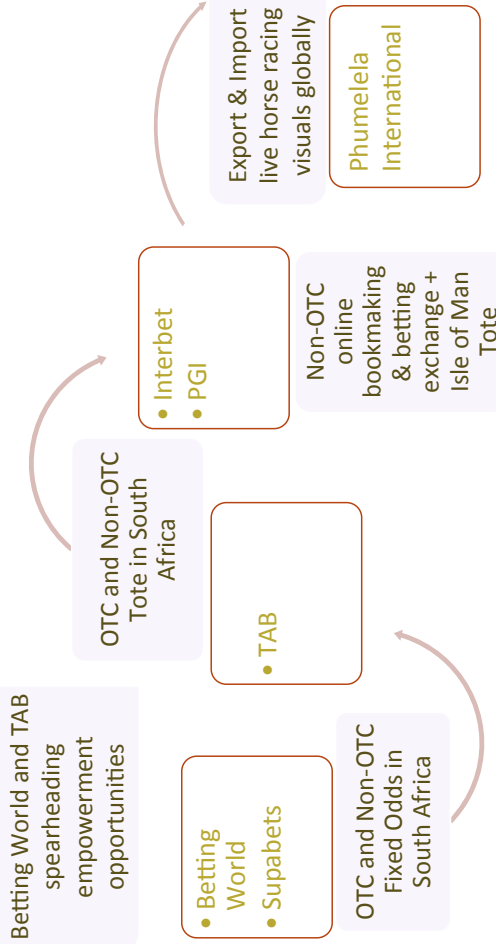

Notes

Phumelela is a betting and media rights group offering a full-spectrum of betting opportunities for customers in South Africa and internationally

A stable of complementary betting and media products in South Africa and internationally

Phumelela has transitioned in to a fully-fledged multiple product betting and media rights Group of companies

Betting operations – performance of OTC and non-OTC retail footprint

- 216 retail stores in South Africa
- 75,146 m² of trading space
- 78,192 non-OTC active accounts
- R659,3m in net betting income for the six months
- Scale of Supabets stores accounts for greater trading density
- As Supaworld JV stores mature the trading density would converge with Supabets
- Betting turnovers in Supabets JV outlet 400% higher than the previous Betting World
- Rationalisation of the TAB/Betting World footprint will improve efficiencies
